# Reporting Symptoms & Selecting Doctor

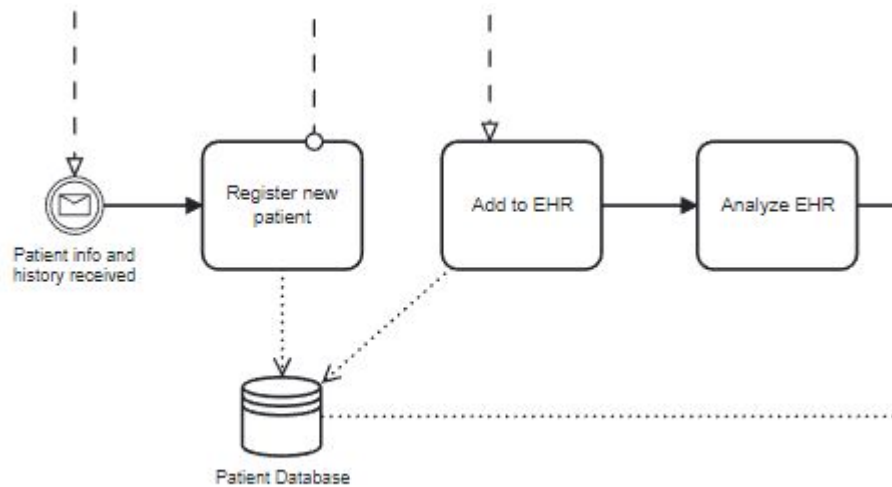

# Consultation/Test Report / Follow Up

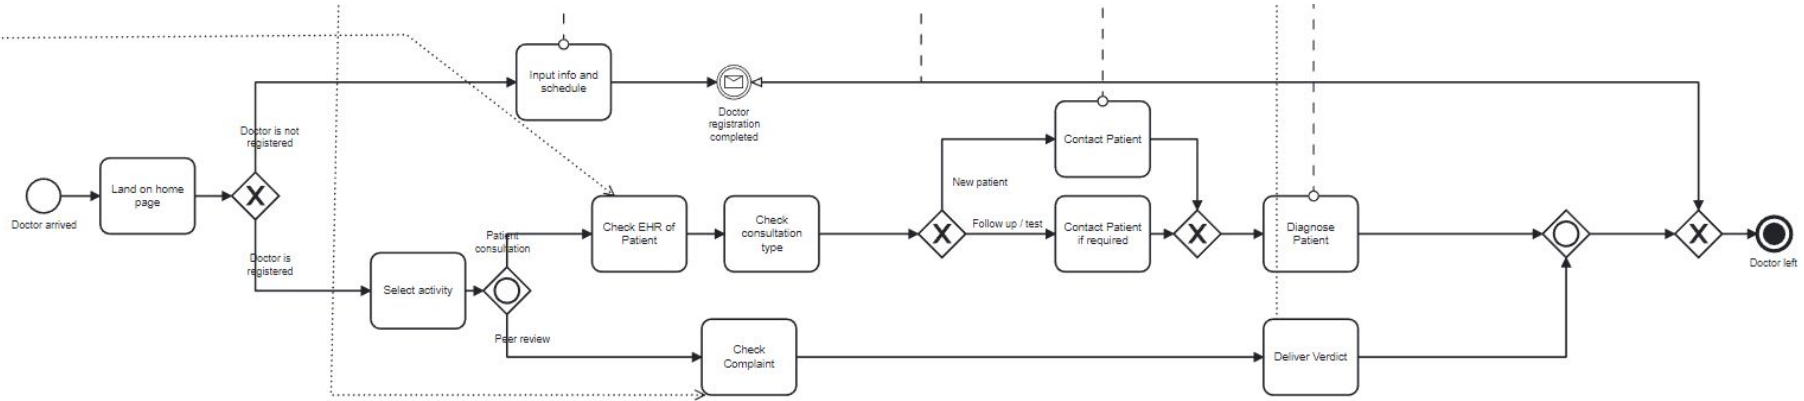

# Adding to EHR

# Dynamic Rescheduling

- Patient cancels appointment before a cut-off time.
- Detect fragmentation in a doctor's schedule.
- Notify selected patients with the option to reschedule.
- Patients must approve in a limited time frame.

## Pool 3: Doctor

# Consultation

- For the first consultation, the doctor contacts the patient.
- For subsequent follow ups or test reports, contact is optional.

# Peer Review

- When a dissatisfied patient files a complaint, the system logs the relevant symptoms and suggested treatment.
- Selected doctors are notified to review.
- Reviewers do not see the patient's or doctor's identification.
- Reviewers provide a verdict.

Thank You
